MICHAEL GALAS
Software Engineer

Vancouver, WA 98682
Mgalas2015@gmail.com
Cell: 971-344-9532

SKILLS AND INTERESTS

Programming Languages: C#, JavaScript(ES6+), CSS3, HTML5
Databases: Microsoft SQL Server, T-SQL, SQL, MySQL, LINQ, ADO.NET, EF Core
Frameworks: .NET Core, ASP.NET Core, jQuery, Vue.js, Bootstrap
Interests: Docker, Kubernetes, Microservices, React, Redux, Nodejs, AWS

PROGRAMMING EXPERIENCE

- **Twenty-One Game** (2019) – Used C# & .NET Framework to create this console app. Used OOP to inherit from other classes. Used Lambda expressions to create simplified foreach loops and other expressions.
- **Insurance Quotes ASP.NET MVC** (2019) – Created a database with Microsoft SQL Server Studio. Used Entity Framework to integrate my database into the application. Used conditional statements to generate a quote based on the user's input.
- **RoboFriends React App** (2019) - Utilized RoboHash API to generate new robots into component. Created ErrorBoundry component to catch errors. Utilized JSONPlaceholder. Used Redux for state management.

EMPLOYMENT

Software Engineer, Intern   **Prosper IT Consulting**   **May 2019**
Portland, OR
-Used Azure DevOps to work on a 2-week agile methodology scrum sprint with daily stand ups.
-Integrated Google Map and Geocode API's to generate a map with a marker of job sites addresses that dynamically updates as the job sites change using JavaScript & razor syntax.
-Added a feature to the admin page to have a pop-up date selector using razor syntax.

Truck Driver   **KeHe Distributing**   **August 2018 – Present**
Portland, OR
-Proactive team player that would come in on my days off when needed to cover coworkers.
-Completed 25% higher workload by utilizing my time management skills and maintaining a solid workflow.
-Made one of the biggest deliveries to Amazon Fulfillment for over $80,000.
-Used my 4 years of customer service experience to make sure my customers were always happy.

Truck Driver   **Columbia Distributing**   **July 2016 – August 2018**
Portland, OR
-Reduced my work time 25% by memorizing the location of over 30 customers.
-Interacted with managers/customers daily and provide customer service upon delivery.
-Was responsible for up to $25,000 worth of cash and checks that I balanced at the end of my shift.

EDUCATION

Portland, OR   **The Tech Academy**   **Oct 2018 – June 2019**
- Completed 600 hours of hands on programming experience and learned computer science fundamentals.
- Studied version control such as Git. Learned about Agile/Scrum Methodology.
- Course included: C#, .NET Framework, ASP.NET MVC, Entity Framework, JavaScript, HTML, CSS, and SQL.
- Operating Systems, Databases, Algorithms, Programming Languages, Comp. Architecture, and Object-Oriented Programming Principles

Portland, OR   **BizTech Marshall HS**   **Oct 2003 – Nov 2007**
- General Studies for a High School Diploma.
